The references cited on the PTO 1449 were cited on the International Search Report for International Patent Application No. PCT/EP01/09857, to which U.S. Application Serial No. 10/135,692 claims priority. A copy of the Search Report is enclosed.

Enclosed are U.S. Patent Nos. 5,942,069 and 6,294,119, which correspond to Japanese Patent Document No. JP 09071112 and European Patent No. EP 0 925 903, respectively.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and applicant determines that the cited documents do not constitute "prior art" under United States law, applicant reserves the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

This Information Disclosure Statement is being filed, the applicant believes, before the mailing date of a first Office Action on the merits. Should any fee be required, or if any overpayment has been made, the Commissioner is hereby authorized to charge any fees, or credit or any overpayments made, to Deposit Account 02-4377. Duplicate copies of this sheet are enclosed.

Respectfully submitted,
